Section 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: Ultracare Minit Spray

Product Code(s): 60019544

Product Use: Disinfectant

Synonyms: None known

Supplier Information (where applicable):
Not Applicable

Manufacturer
Coltène/Whaledent Inc.
235 Ascot Parkway
Cuyahoga Falls, OH 44223 / USA
Phone: 1 330 916 8800
Fax: 1 330 916 7077
info.us@coltene.com

Authorized EC Representative
Coltène/Whaledent GmbH + Co. KG
Raiffeisenstraße 30
89129 Langenau
Phone: 49 7345 805 0
Fax: 49 7345 805 201
info.de@coltene.com

Emergency Contact Number:
USA & Canada: 1 800 535 5053

Copies of this SDS can be found at www.coltene.com

Section 2: HAZARDS IDENTIFICATION

GHS Classification: Flammable Liquids Category 2, Serious Eye Damage/Eye Irritation Category 2B, Specific Target Organ Toxicity Single Exposure Category 3

Precautionary Statements:

Prevention:

Response:

Storage:

Disposal:
P501 - Dispose of contents/container in accordance with local/regional/national/international regulations.

Route(s) of Exposure: Eyes, Inhalation

Signal Word: DANGER

Hazard Statements:
H225, H320, H335, H336 - Highly flammable liquid and vapour. Causes eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness.

Labeling Elements:

Hazard Category:
- Flammable Liquids Category 2
- Serious Eye Damage/Eye Irritation Category 2B
- Specific Target Organ Toxicity Single Exposure Category 3
Supplemental Information: This is a registered EPA product. The product labeling is in compliance with EPA regulations and guidelines.

Section 3: COMPOSITION / INFORMATION ON INGREDIENTS

<table>

Composition comments: US GHS: The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of 1910.1200.

Section 4: FIRST AID MEASURES

Inhalation: If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell.

Eyes: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. In case of fire: use dry chemical, CO2, water spray or regular foam to extinguish. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell.

Skin: If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

Ingestion: Rinse mouth. Do not induce vomiting. Get medical attention if symptoms occur. Never give anything by mouth if victim is unconscious, or is convulsing.
Most important symptoms/effects, acute and delayed: Symptoms may include cough, pain, choking, breathing difficulties, stinging, tearing, redness, swelling, and blurred vision. Vapors have a narcotic effect and may cause headache, fatigue, dizziness, irritability, impaired memory function, reduced judgement, nausea, deficits in perception and coordination, reaction time or sleepiness.

Section 5: FIRE FIGHTING MEASURES

Extinguishing Media: Dry chemical, CO2, water spray or regular foam

Unsuitable extinguishing media – Do not use water jet as an extinguisher, as this will spread the fire.

Specific Hazards Arising from the Chemical: During fire, gases hazardous to health may be formed.

Protective Equipment and Precautions for Firefighters: Standard protection for all fire fighters as per their S.O.P. which should include self-contained breathing apparatus (SCBA), if necessary.

Fire-fighting equipment/instructions: In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.

Section 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, and Emergency Procedures: Remove all possible sources of ignition in the surrounding areas. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapor. For personal protection, see section 8 of SDS.

Methods for Containment and Clean-up: Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Take precautionary measures against static discharge. Use only non-sparking tools.

Environmental Precautions: Avoid discharge into drains, water courses, sewers, basements, confined areas or onto the ground. Use appropriate containment to avoid environment contamination.

Other Information: Not applicable

Section 7: HANDLING AND STORAGE

Precautions for Safe Handling: Do not handle, store or open near an open flame, sources of heat or sources of ignition. Do not smoke. Minimize fire risks from flammable and combustible materials (including combustible dust and static accumulating liquids) or dangerous reactions with incompatible materials. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Use only with adequate ventilation. Avoid breathing vapor. Avoid contact with eyes, skin and clothing. Avoid prolonged exposure. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Wash thoroughly after handling. Keep container tightly closed when using do not eat or drink.

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Component Exposure Limits:

Appropriate Engineering Controls: Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal Protective Equipment (Eyes and Face): Use personal protective equipment as required, goggles or safety glasses.

Personal Protective Equipment (Skin): Use personal protective equipment as required, protective gloves.

Thermal Hazards:
Keep away from heat/ hot surfaces/sparks/open flames and other ignition sources.

Personal Protective Equipment (Respiratory): Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.

General hygiene considerations: When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminites.
Section 10: STABILITY AND REACTIVITY

Reactivity: This product may react with strong oxidizing agents.

Chemical Stability: Stable under recommended storage conditions.

Possibility of Hazardous Reactions: No dangerous reaction known under conditions of normal use.

Conditions to Avoid: Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Do not mix with other chemicals.

Incompatibility: Strong oxidizing agents.

Hazardous Decomposition Products: May include and are not limited to: Oxides of carbon.

Section 11: TOXICOLOGICAL INFORMATION

Likely Routes of Exposure:

Acute Effects:

Inhalation: Vapors have a narcotic effect and may cause headache, fatigue, dizziness and nausea. May cause respiratory irritation.

Eye Contact: Causes eye irritation.

Skin Contact: Prolonged exposure may cause skin irritation.

Ingestion: Expected to be a low ingestion hazard.

Sensitization: Non-hazardous by OSHA criteria

Carcinogenicity: Non-Hazardous by OSHA criteria

Mutagenicity: Non-hazardous by OSHA criteria

Reproductive Toxicity: Non-hazardous by OSHA criteria

Teratogenicity: Non-hazardous by OSHA criteria

Specific target organ toxicity – single exposure: Respiratory tract irritation. Narcotic effects.

Specific target organ toxicity – repeated exposure: Not available

Chronic effects: May cause respiratory irritation and/or narcotic effects including but not limited to headache, fatigue, dizziness and nausea.

Section 12: ECOLOGICAL INFORMATION

Persistence / Degradability: No data is available on the degradability of this product.

Bioaccumulative Potential: Not Available

Partition coefficient n-octanol/water (log Kow)

Ethanol -0.31

Mobility in Soil: No data available

Other Adverse Effects: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component

This product does not contain persistent, bioaccumulative and toxic chemicals(PBT’s) nor does this product contain any very persistent and very bioaccumulative chemicals (vPvB’s).

Section 13: DISPOSAL CONSIDERATIONS

Disposal: Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Incinerate the material under controlled conditions in an approved incinerator. Do not incinerate sealed containers. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. If discarded, this product is considered a RCRA ignitable waste, D001. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations: Dispose in accordance with all applicable regulations.

Hazardous waste code D001: Waste Flammable material with flash point < 60°C (140°F). The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues/unused products: Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging: Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Additional Disposal Considerations: Not available

### Section 14: TRANSPORT INFORMATION

**Emergency Response Guide Number:** 127

**Department of Transportation:**

- **UN Proper Shipping Name:** Ethyl alcohol solutions
- **Hazard Class:** 3
- **UN Number:** UN1170
- **Packing Group:** II

**Special provisions:** B1, T1, 24

**Packaging exceptions:** 150

**Packaging non bulk:** 203

**Packaging bulk:** 242

**Description:** Ethyl alcohol solution, 3, UN1170, PG II – Limited

**Basic shipping requirements:**

- IATA ERG Code: 3L
- IATA Limited Quantity Packaging Instruction: Y344
- IATA LTD Quantity Max Quantity per Pkg: 10L
- IATA Packaging Instruction: 355
- IATA Special Provisions: A3, A58, A180
Description: Ethyl alcohol solution, 3, UN1170 PG II

Basic shipping requirements: mS No.: F-E, S-D

Section 15: REGULATORY INFORMATION

US Federal Regulations: This product is not a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

SARA Sections 302 and 304: No

SARA Sections 311 and 312: Yes

SARA Section 313: Not regulated

CERCLA: Hazardous Substance List (40 CFR 302.4) Not listed

TSCA: Section 12(b) Export notification (40 CFR 707, Subpt. D) Not regulated

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050) Not listed

Other Federal Regulations:

- Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
  Not regulated

- Clean Air Act (CAA) Section 112(r) Accidental Released preventions (40 CFR 68.130)
  Not regulated

- Safe Drinking Water Act (SDWA): Not regulated

- Food and Drug Administration (FDA): Not Regulated

Country(s) or region | Inventory name | On inventory (yes/no)*
----------------------|----------------|---------------------
United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory | Yes

*A “yes” indicates this product complies with the inventory requirements administered by the governing country(s).

California Proposition 65: There are no chemicals within this mixture on the Proposition 65 List.

Canadian Regulations require the inclusion of the following statements under “Regulatory Information”**: This product has been classified in accordance with the hazard criteria of the controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.
This product is a U.S. EPA Registered product, EPA Reg. No. 88494-2 and is subject to specific labeling requirements under Federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide products. FIFRA labels approved by EPA pre-empt OSHA’s label requirements. The product labeling is in compliance with EPA regulations and guidelines.

Following is the hazard information required on the pesticide label:

**CAUTION**

KEEP OUT OF REACH OF CHILDREN

Hazardous to Humans and Domestic Animals

Flammable. Keep away from heat or open flame.

Causes moderate eye irritation
